

Testing accommodations are available for the HESI A2 exam. Students are required to have a letter of accommodations in order to receive alternate testing conditions for the HESI A2 exam.

In order to best facilitate testing accommodations, please follow these instructions:

1. Students who require testing accommodations will need to first contact the office of disability services to obtain a letter for any necessary accommodations. Please contact the office via the following link:  
<https://lfcc.edu/current-students/services-for-students/counseling-advising-and-career-services/disability-services/>
2. Once a letter of accommodations is acquired, the student must then forward the letter to the Allied Health Testing Specialist, Kelsey Owens. She can be reached at [kowens@lfcc.edu](mailto:kowens@lfcc.edu).
3. The student will then be contacted to schedule a new testing date, depending on the accommodations, and receive further instructions on how to register for the exam.
