VCCS Common Curriculum Update	L. Williams discussed CBC with committee members. Both the traditional and advanced placement option curricula have been approved by the C&I Committee. Plan to move forward with first cohort beginning August 2018. It will change the way clinical is run so it will require increased communication between LFCC and the facilities. Both part-time and full-time faculty are completing education on teaching in a concept-based curriculum. One main goal is to help with ease of transfer from one VCC to another.

<b>Approval and Accreditation</b>				
<b>VBON</b>	Both ADN and PN received full approval from VBON fall 2018. Must send VBON specific information for new curriculum, which includes clinical plan, training, curriculum, etc.			
<b>ACEN</b>	Full accreditation from ACEN; however, we must submit a substantive change report based on new curriculum and have one day visit in spring 2019.
