Financial Aid Course Audit Tool

Federal regulations have always dictated that students may only receive financial aid for courses that apply toward their degree or certificate program. This tool helps you stay informed each semester about your course selections.

Repayment Policy

In order to remain in good standing, you need to successfully complete all courses.

As required by federal and state regulations, students using Financial Aid who withdraw, stop attending, do not successfully complete all your courses, are dismissed, or take a leave of absence prior to completing 60 percent of a payment period or term may be required to repay some or all of their aid. View the policy at lfcc.edu/repayment.
