IS ADMISSION TO THE PROGRAM VERY COMPETITIVE? ARE THERE ADMISSION PRIORITIES?

Yes, admission is competitive but varies each year. Priority is given to applicants who have the highest HESI A2 Composite and Critical Thinking scores and who live in the Laurel Ridge Community College service region. Please review the [Admission points](#) document on the admission information page to review how admission points are awarded.

WHO MAKES THE ADMISSION DECISIONS? HOW ARE APPLICANTS NOTIFIED?

An admission committee makes the decisions on admission. Admission to the nursing program is a blinded process, meaning no student names are visible during the admission process. Students are chosen based on scores earned for performance on admission testing and living in the service region. Students with the highest scores are admitted first. Students are generally notified six weeks after the application deadline. Applicants will be notified via Laurel Ridge Community College email. Please open on a computer to ensure you can view the letter in its entirety as phones and tablets may not display attachments correctly. Students must provide a response to the "offer of admission" by a specific date in order to reserve their seat in the nursing program.
